

2" X 25ft ROLL EXHAUST WRAP

Exhaust Wrap 2" x 25ft roll

An important first step in reducing unwanted and power-robbing heat, is wrapping exhaust headers and downpipes. Less heat results in a cooler air charge for improved performance.

DEI has developed two new sizes of our most popular exhaust wraps. We now have 2" x 25ft rolls of our Black and Tan glass fiber wraps.

- Sized for smaller headers, turbo down pipes all powersport applications & spot protection
- Reduces under hood radiant heat up to 50%
- Decreases exhaust density & increases exhaust flow
- Improves horsepower
- Sewn-in guide lines for proper overlap (Tan)
- Withstands 1200° F direct / 2000° F radiant heat

Perfect size roll for shorter pipes, headers, turbo down pipes and powersports exhausts

| Part # | Description |
|--------|----------------------|
| 010099 | Black 2" x 25ft roll |
| 010137 | Tan 2" x 25ft roll |
