

LINE SLEEVING

NEW

GOLD Line Sleevings

Manufactured from our high temperature Metalized Polyimide lamination, bonded to a robust 20oz heat treated glass fiber base material, the DEI line of Gold sleeving will protect and keep components cool in the most demanding applications. Able to reflect direct heat up to 800°F makes DEI Gold line sleeving the perfect choice to keep critical lines, air intakes and hoses cool and protected.

Heat Shroud GOLD is made from the same high temperature materials but with the added convenience of hook & loop closure with open edges. Without the need of removing one end of connected wires, cables and hoses, simply wrap around whatever needs protection and close edges.

- 20oz. heat treated base glass
- Lock weave pattern
- Metalized Polyimide lamination
- Base glass radiant heat to 1100°F
- Easy to cut or trim to size
- High temperature Hook and Loop
- .031" thick
- Only available from DEI
- 67% reflection of heat during Heat Flux testing
- Tested to FSTM 191.5100 standards
- Tested to ASTM D1117 standards

GOLD LINE SLEEVING

Part #	Description
010914	Heat Sheath GOLD 3/4" x 36"
010915	Heat Sheath GOLD 1 1/4" x 36"
010916	Heat Sheath GOLD 1/2" x 36"
010917	Heat Sheath GOLD 1" x 36"
010918	Heat Sheath GOLD 2 1/4"
010458	Heat Shroud GOLD 1/2" - 1 1/4" x 36"
010486	Cool Cover GOLD 3"- 4" x 28"
