

DAMPING MATERIAL

Boom Mat Spray On Damping Material

Boom Mat Spray-On damping is designed to reduce the vibration from structure borne noise in those hard to reach areas such as trunk interiors, fender wells, undercarriage, body panels, rear quarters and inside door panels. Use as a first layer for areas with contours and bends for vibration damping needs.

All the benefits of Boom Mat Damping Material in one easy to apply spray!

- Let's you get into hard to reach areas
- Can paint to match any color scheme
- Cover a huge 20 sq. ft. area
- Will seal out moisture preventing rust
- Saves time with a quick and easy install... just shake and spray!

Where to use:

Floors, door skins, trunks, roofs, any vertical or horizontal interior surface and any hard to reach areas
