

HIGH TEMP SILICONE COATING

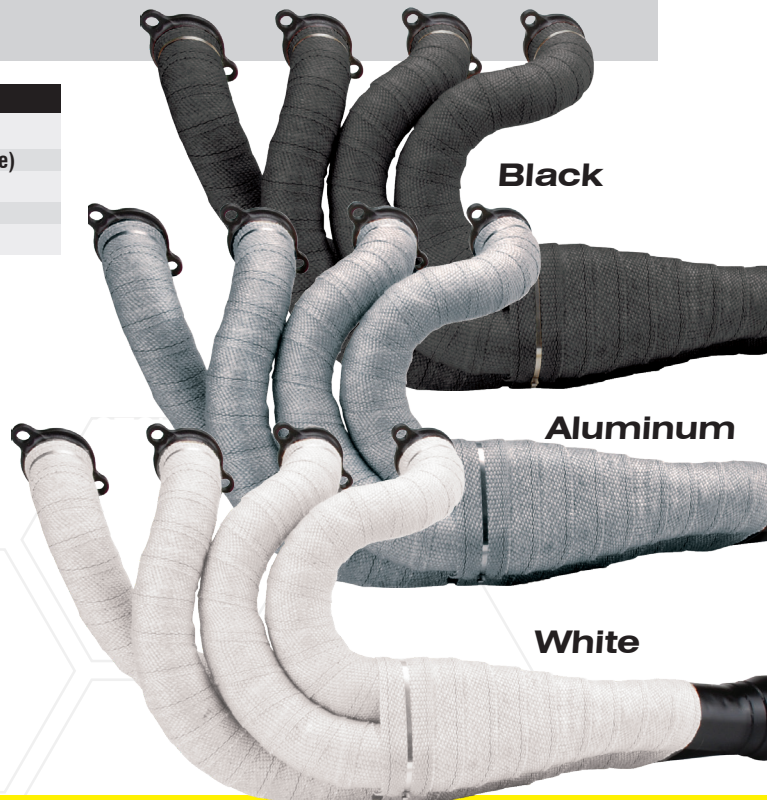

HT Silicone Coating

The High Temperature (HT) Silicone Coating provides lasting protection for any hot surface up to 1500 degrees. DEI recommend the use of this coating with their exhaust wrap because it seals the material and provides lasting protection from oil, dirt and road grime. This products works well on headers, blocks, starters and even on your grill at home. HT Silicone Coating is VOC (Volatile Organic Compounds) compliant in all 50 states. For use with all DEI exhaust wraps, HT Silicone Coating penetrates, seals and protects as well as helping to extend the lifespan of all DEI exhaust wraps.

- Protection from abrasions, oil, and grime
- Withstands up to 1500°F
- Use on exhaust wraps, engine blocks, pipes, manifolds & more
- 12 oz. can
- Cure temperature: 400°F
- Cure time: 2 hours
