

EXHAUST HEAT PROTECTION

Harley Davidson Pan America Heat Shield Kit 2021 and Up

This kit reduces heat radiating from the two main sources of exhaust heat on the Pam America models for a more comfortable ride. The kit will reduce felt heat and the chances of melting or burning expensive riding gear. The rear heat shield liner uses a combination of our Dura 2000 insulation and dimpled aluminum reducing heat more than 50%. The catalytic converter shield is an OEM quality shield with premium insulation enclosed in 306 Stainless Steel. This type of shield is far more effective than conventional metal shields and will reduce heat more than 50%.

Will not harm catalytic converter

Compatible with skid plates

Easy installation with no permanent modifications

Noticeable reduction of heat

HARLEY PAN AMERICA HEAT SHIELD KIT
