

PROTECT-A-BOOT & WIRE KIT

Protect-A-Boot & Wire Kits Plug Boot & Wire Protection

Kits include everything needed to protect spark plug boots and wires from harmful under hood heat. Color matched Protect-A-Boots, Protect-A-Wire and Hi-Temp Shrink Tubes included for a professional finished look.

Made from a high temperature resistant glass fiber material Protect-A-Boot and Wire Kits provide spark plug boot and wire protection from extreme under hood heat.

*Titanium is made from pulverized lava rock.

- Helps prevent burn-through, hardening and cracking of boots
- Non-flammable & protects against chemicals & resists water
- Universal-fits most straight or angled boots
- Withstands up to 1200°F of direct continuous heat
- Titanium up to 1800°F of direct continuous heat
- Boots are double-wall construction for added durability
