

RADIATOR RELIEF

Radiator Relief Flush

Radiator Relief™ Cooling System Flush is a concentrated cleansing agent that effectively removes rust and mineral deposits left behind in the radiator core and hose lines. This advanced treatment also dissolves oily residue build-up left behind in old anti-freeze and coolant mixtures due to external contaminants. Helps maintain optimum efficiency and recommended to be used with distilled water.

- Attacks mineral build up and oily residue with aggressive detergents
- Breaks up harmful deposits
- Helps restore maximum thermal transfer ability of your cooling system

FLUSH
