

HEAT SHIELDS

Stainless Steel Heat Shield Pads

Universal heat shield pads. Made from double sided high grade Stainless Steel with hi-temp insulation. Welded seams, seal the insulation between the stainless steel making for a durable, long lasting shield. Grommet holes allow for easy mounting. Capable of 2000°F direct heat. Can be hand formed to fit bends and curves. Available in two sizes.

Features:

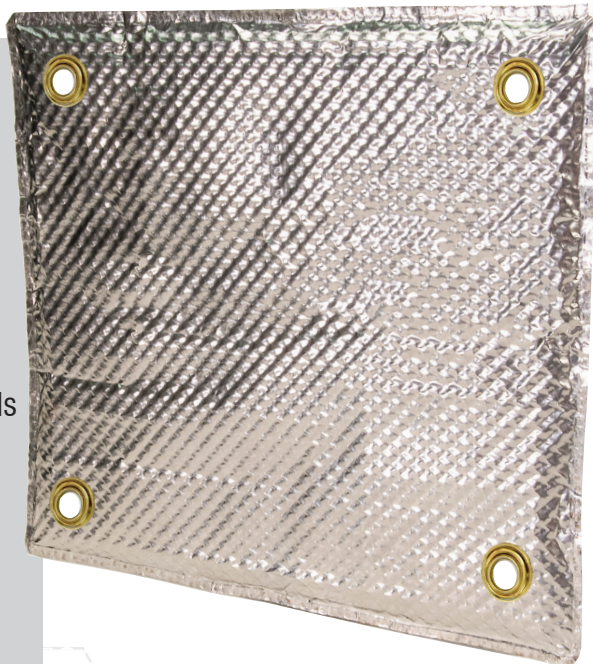

- Stainless Steel Heat Barrier material on outside surfaces
- Insulating inner layer
- Welded seams for strength and durability
- Grommets for secure mounting points

Advantages:

- Extremely light weight
- Block heat & protect components better than factory shields
- Easy to install with stainless straps
- Flexible to shape around pipes

Benefits:

- Helps prevent burns & blocks uncomfortable heat
- Protects components from heat damage
- Increases driver & passenger comfort

Welded edges for strength and grommets for secure mounting points

STAINLESS STEEL HEAT SHIELD PAD

Part #	Description
10257	Stainless Steel Heat Shield Pad 4" x 8"
10258	Stainless Steel Heat Shield Pad 12" x 12"
