

TURBO SHIELD

GEN-3 TITANIUM

We Raised The Bar

THE MOST TECHNOLOGICALLY ADVANCED TURBO SHIELD IS HERE!

We incorporated all our experience to build the absolute best turbo shield on the market. By developing advanced textiles and diving deep into what is needed to control turbo heat, we developed the GEN-3 TITANIUM Turbo Shield. A Silicone coated TITANIUM LR outer layer with multiple stainless steel and silica inner layers. Without a doubt the strongest, most heat resistant shield available.

OUTER SHELL

- DEI's Titanium material with LR technology coated in silicone to insulate and hold up under extreme conditions.
- Prevents fraying of material and encases seams to make them over 4 times stronger.

INSULATION LAYER

- Thick layer of silica insulation to keep heat in turbo shield and turbo housing.
- Silica has a very low thermal conductivity making one of the best insulators available.

INNER LAYER

- Stainless steel, glass fiber and silicone blend layer adds to the insulating and thermal properties.
- Increases seam strength, durability and insulation value.

INNER COVER

- Stainless Steel fabric holds up against the highest temps.
- Will not break down or become brittle with heat.
- Adds a first barrier of protection.

GEN-3 TITANIUM TURBO SHIELDS & KITS

Turbine	Shield Only	Shield Kit
T3	010244	010243
T4	010241	010240
T6	010238	010237
T25/T28*	010247*	010246*
T6X	010252	010251

*For use on turbos with internal wastegate

Each Kit Includes:
Shield, 2" x 15 ft roll of Titanium wrap,
Two 20" stainless steel Locking Ties & 5 ft of fastening wire
