

HEAT SHIELD KIT

CAN-AM® MAVERICK X3 Heat & Sound Control Kit

Many UTVs have cockpit heat issues including the Can-AM Maverick X3. DEI Powersports offers a great solution with a CNC cut Heat Control Kit. These kits will reduce the radiant heat coming through the seats, console, cup holders, and drivers right leg area. The material is 10 mil dimpled aluminum with a glass fiber layer and an aggressive self-adhesive backing. It will withstand 1750°F of continuous radiant heat while increasing the comfort of you and your whole crew. All components are clearly labeled for a straight forward installation.

- Fits 2017-2022 Maverick X3 2-Seater
- Blocks heat build up in the cockpit area
- Reduces engine noise & vibration
- Adhesive backed & precision cut
- No modifications are needed for installation

CAN-AM MAVERICK X3 HEAT CONTROL KIT
