

HEAT CONTROL KIT

Honda Talon Heat Control Kit

Have a cool comfortable ride while reducing cleanup time. DEI's new Heat control and Dirt deflector kit will reduce heat in the center console area while sealing it from dirt and mud that can collect inside the console. Made using multiple materials best suited for the job. Using our semi-ridged Form-A-Barrier to block heat on the lower section of the tunnel and our Heat Screen aluminized Glass fiber material for the top portion. Simple installation with detailed instructions along with our DEI support team makes install a breeze. Also included is our Extreme Heat Barrier for behind the passenger seat to block radiant heat from the exhaust and engine.

Features:

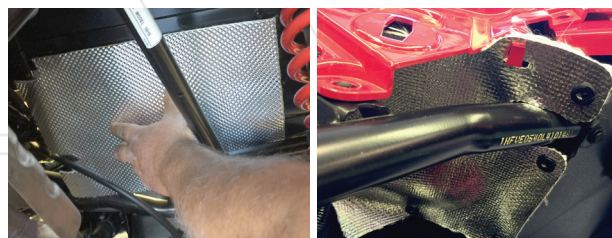

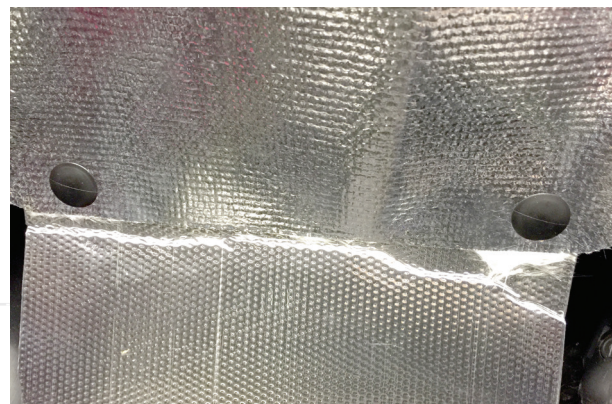

- Form-A-Barrier material good to 1300°F Radiant
- Heat Screen material good to 1200°F Radiant
- Extreme Heat Barrier good to 1750°F Radiant
- Includes hardware and detailed instructions

Advantages:

- Long lasting Durable materials
- Easy to Install
- More Comfortable ride

Benefits:

- Reduce tunnel heat
- Block dirt and mud from getting into tunnel area
- Reduces passenger seat heat
- Makes cleaning easier
