

# INTERIOR KITS

## Camaro / Firebird 1967-1969 (First Generation) Custom-cut Heat & Sound Control Kits

Design Engineering is leading the way with the most advanced thermal acoustic kits for first generation Chevrolet Camaro and Pontiac Firebird F-body cars. Using a combination of our new D-Mat ultra light weight insulation and sound absorber material, our proven Under Carpet Lite and 2mm damping material, we offer an effective and affordable solution to unwanted heat and noise.

Each kit includes the correct material to cover specific interior areas including floors, firewalls, headliners, trunks and more. Designed using the right amount of material to control interior comfort level, Heat & Sound Control Kits eliminate undesirable noises such as tire, road and engine noise and heat transferred from the engine bay and hot exhaust running under the floorboards.

Fully illustrated instructions are included with each kit to show where each custom cut piece of material should be positioned for a simple no-guess work installation.

Damping Material	Under Carpet Lite™	D-Mat™ Layer
<ul style="list-style-type: none"> <li>Eliminate unwanted engine &amp; road noise</li> <li>Dampen vibrations</li> </ul>	<ul style="list-style-type: none"> <li>For floors</li> <li>Light weight</li> <li>Superior heat &amp; noise barrier</li> </ul>	<ul style="list-style-type: none"> <li>For firewalls &amp; headliners &amp; other areas</li> <li>Ultra light weight</li> <li>Superior heat barrier</li> </ul>

### INDIVIDUAL PRE-CUT KITS

Part #	Description
500404	Trunk Kit
500405	Package Tray Kit
500406	Trunk Divider Kit
500407	Floor Kit
500408	Roof Kit Coupe
500409	Kick Panel Kit
500410	Side Panel Kit

### COMPLETE INTERIOR PRE-CUT KITS

Part #	Description
500400	Coupe w/Factory AC
500401	Coupe w/o Factory AC
500402	Convertible w/Factory AC
500403	Convertible w/o Factory AC

Kit includes 2 cans of Hi-Temp Spray Adhesive

Hi-Temp Spray Adhesive provides high strength adhesion and is used to install Under Carpet Lite and D-Mat materials.
